Category	This information auto fetched by system
Product ID	This information auto fetched by system, and it had been automatically generated by system when seller create post
Product Name	This information auto fetched by system, and it had been filled by seller as “ Title” of Post
Brand Name	It will be auto Fetched by system, and it will show if seller add it
Supplier Name	This information auto fetched by system, and it shows seller company name.
To Seller	Seller name and photos as in main account or sub account if applicable, based on Preferences of Seller , like below cases - if seller divide sales between subaccount based on product, you have to show subaccount profile photos and related seller name responsible for this group of products. -if Seller divide works between sub account based on buyer location, you have to show subaccount profile photos and related seller name responsible of buyer area,
Subject	This Field can be edited by buyer , Default Field Name will be RFQ about Product ID +Product Name
Feature product photo	A resized photo of products which selected “featured photo” by seller when creating post
Product overview	Insert information filled by seller under field about his product with view more click,
Product Specification	Insert product specifications as in “Specification List” Filled by seller, and make “custom elite design” with view more

Comments over Simple Product detail Page (PDP) and related add post

1	Mistake	In Add Post under input Filed “Pre Title “	Information in Product detail page appear as “Post Title” , rename to sub title or post tilte.
	Bug	Upload File	Not all uploaded file downloaded
	Mistake	Download Catalog	Files are different , it may be data sheet, drawings, ..etc. not only catalog , Replace with “Product resources ” with download icon. You can add this text in hover “Download the latest product resources, including data sheets, drawings, and more.”
	Rename	Technical specification	Product features & Characteristics
	Add hover text	Specification	When hover show this text “Define product Attributes, Features, Characteristics or Parameters”
	Add hover text	Term	When hover show this text “ Add related Terms Values, Levels, Options, Choices or Selections”
	Mistake	Add post-Commercial information -Fixed pricing	Add “Unit filed” to be selected by seller through dropdown menu if not exist seller can add unit , Never mention price or quantity without unit
	Mistake	In house production capacity	Add unit , or fetch same selected unit in above price filed. (unit must be added to production capacity in product detail page, now it is not considered and the meaning is not correct
	Rename	Negotiable Price	Is Price Negotiable Upon Request< yes\no switch and place it in the same Line of “price filed” after currency field.
	Add feature	Place of origin	Give choice to seller to add more territories not only one and more country of origin for each territory with option to show hide any territory or country.
	Mistake	Sea and airport lists	Sea and airport list not accurate not complete , please correct and give seller option to write if it is not exist
		Sea and airport	Before selecting seaport or airport seller must select country , also give option to seller to select more sea and airports
	Font Format	Smart Editing	Use the same fonts and colors as the product detail page for a consistent look.

Change of content and design of some sections in PDP

- Because Specification is more important than overview , Replace Overview with “product specification” filled by seller in add post
 - The design must be perfect and clear
 - Add view more if seller insert more specifications and terms
 - Remove specification from tabs
 - Add brand to same specification section , try best possible design, you can for example left 1\4 of section to show brand

Max flow	Head max	Liquid temperature	p max
9503 m³/h	238 m	0 .. 120 °C	25 bar

- In price section make like below, all related functionalities in details are described below

A. Seller select to show price

This is (by order| Stock)^{show in special design or color} product is available for purchase at below listed price:

Shipping incoterm+ Unit Price + Currency Per Unit (EX Work Price 5000\$ per KG)

The final price of this product will be subject to negotiation and mutual agreement. (appear of seller check box)

If price based in quantity add 2 levels with view more

- Price From 1 unit to 100 unit: Unit Price + Currency Per Unit based on “shipping incoterm.
- Price From 100 unit to 200 unit: Unit Price + Currency Per Unit based on “shipping incoterm.

~~The final price of this product will be subject to negotiation and mutual agreement (not applicable in case of quantity based price)~~

B. Seller select to hide price

Show one of below sentences based on seller selection. Check below

3. Design and show country of origin in PDP as described in below
4. Design and show label of “product availability or manufacturing restrictions:”
5. Remove quantity selection from PDP

ADD Post functionalities changes in Commercial information section

1. **Price Filed:** Seller has to [fill price] +[select Currency] + [Select shipping incoterms] + [hide\show switch]

- show this information to the seller, “Choose an initial price and then fine-tune your discounts based on buyer behavior and seasonal trend and many more from price setting in dashboard.”

1. In PDP Show this Text if Seller selects to show price.

This product is available for purchase at below listed price:

Unit Price + Currency Per Unit based on “shipping incoterm”

- The final price of this product will be subject to negotiation and mutual agreement. **Show hides switch or check Box**

2. If seller select to hide price, he shall select one of below options to show in PDP

- **Sign in to show price** or contact us for pricing information.
- **Price Flexible:** The price of this product is flexible and may vary depending on quantity and other factors. Please sign in to see price us to discuss pricing.
- **Price Negotiable Upon Request,** Please contact us for pricing information. The price of this product may vary depending on quantity and other factors.
- **Price Subject to Negotiation** The price of this product is negotiable upon request. Please contact us for more information
- **Price Subject to Final Agreement:** The price of this product is flexible and may vary depending on quantity and other factors. Please contact us to discuss pricing

3. “Get Quote Now” , or “Contact us Now “ Seller shall select to which show in PDP “Get quote” or “contact us”

Country of Origin Selection

Country of origin , seller has to select from one of 3 below cases

- Case 1: Product from Specific Countries of Origin
- Case 2: Product Components Manufactured in Different Countries
- Case 3: Regional Origin Labeling

1. **Case 1, Product from specific countries of origin** , In case of seller want to show “the product as one unity” manufactured in certain country or countries of origin.

A. Seller has Select in which country\countries this product manufactured [Country of origin1, Country of origin 2] , show-hide switch.

Example: ACB Company Has 2 factories 1 in Germany and other in China

B. Only in case of seller hide country of origin switch. System to automaticity detect the territory and display message to seller with detected Territory or territories [territory1, Territory2] and ask seller again to show or hide by switch.

C. Last step, we will ask seller which label we have to show in PDP, Select one Label to show in PDP

- Made in [Country of Origin1, 2],
- Manufactured in [Country of Origin,1,2] for global distribution.
- This product is proudly made in [Country of Origin1,2].
- This product is manufactured in [Primary Country of Origin] and may, in some cases, be manufactured in alternative locations due to supply chain factors.

- Please note that some components of this product may be sourced from other countries." Check box.

2. **Case 2: product components are manufactured in difference countries.**

A. Seller must select countries, 1. Select primary country of [origin1, origin, 2,..] and 2. select other component [country of origin1,2]

B. The seller has to select one label to show in PDP.

- Made in [Primary Country of Origin], with components from [Other Countries].
- Manufactured in [Primary Country of Origin] for global distribution. Some components may be sourced from other countries.

C. Seller can replace the word of “components” & “Some Components, with alternative words (Character number limit based on design”

3. Case 3, Regional Origin Labeling, show hide switch.

For [Territory] or [country] orders; product Made in [Country of Origin]. + Add more

- Example 1: For North American orders product Made in [Country of Origin].
- Example 2: For European orders: Product Made in [Country of Origin].
- Example 3: For Asian orders: Made in [Country of Origin]. example

New section: Product availability or manufacturing restrictions:: show-hide switch then select one of below labels to show in PDP

- This product is\isn't available to sell in the following countries. [Territory] or [region] or [country]
- This product is\isn't manufactured for the following [Territory] or [region] or [country]
- Please contact us for shipping restrictions to your specific location. Show\hide

list of dropdown menus for territories:

1. North America
2. Europe
3. Asia
4. Middle East
5. Gulf Countries
6. South America
7. Africa
8. Australia and Oceania
