## Skills

**Languages :** javascript , typescript , java , C++

**Frameworks :** React.js , Next.js , Node.js , Express.js , Nest.js

**Database :** MongoDB , Postgres , Firebase

**Others :** Data structures & algorithms , DBMS , OOPs , REST APIs , AI Tools , Vs Code , Figma

## Experience

**American Technology Consulting, Software Development Engineer 1**  04/2022 – present

- Developed and launched **Reveal**  a survey-based application management tool, ensuring best practices in user experience (UX) design, resulting in an intuitive and seamless survey-taking experience.
- Developed an algorithm to calculate notional costs based on survey responses and generated detailed PDF reports summarizing survey results. This streamlined approach provided users with accurate estimates for application maintenance.

*Utilized : React.js , Node.js , Typescript , MongoDB.*

- Engineered and implemented custom **Microservices** for client **John Deere** streamlining business expenditure management with seamless efficiency.
- Devised optimized functions and algorithms for handling extensive database records, ensuring lightning-fast data organization, retrieval, and superior processing speed.

*Utilized : IBM DB2 , Node.js , Express.js , Typescript*

**Cognizant Technology Solutions, Programmer Analyst** 05/2021 – 03/2022

- Developed a SaaS product **UNBOXED** that serves as a platform connecting advertisers to media owners, for advertisers to post their advertisements on any media.
- Designed and implemented a flexible and scalable **RBAC** system, allowing for granular control over user access based on their assigned roles.

Noida, India

*Utilized : React.js , Nest.js , javascript .*

## Certificates

- Infosys Certified Software Programmer 
- HackerRank Problem Solving Certificate 
- Udemy full stack Developer Certificate 

## Projects

**Zwigato, a food ordering application**

- Developed a sleek and user-friendly single-page food ordering application using **React.js**. Leveraged cutting-edge design principles to create an intuitive interface that enhances user experience and streamlines the ordering process

## Education

**ABES Engineering College** 07/2017 – 04/2021

- B.Tech - Information Technology

Ghaziabad
